

## Alternative Homemaking with a Heart of SW Florida, LLC

### REVIEWS

When I was going on a 2 week trip with my son, a friend mentioned she has used and was completely satisfied with Alternative Homemaking, helping her husband while she was gone.

I called & talked to Amanda, told her my needs & she assured me her 'girls' could do the job & we made an apt. for their services.

One of the girls who would be part of a 3 girl team came by & went thru our home showing her where things were & outlining my wishes & concerns. They came exactly as planned and my sweetie was more than happy with their attention & care.

They prepared his lunch & dinner, helped with his showers and even walked with him during his exercise time. I can truly say they gave him a great social presence

and made sure he was safe & taken care of.

I called every day and he told me all about his day, which made my worries about being gone disappear right away.

We have already planned to have Alternative Home making come in whenever I need someone to look after my sweetie. I know they will be a reliable company I can count on to be here and put my mind at ease about his safety & making sure he has social companionship while I am gone!

Thank you Amanda & your great employees, Betty, Jessica & Lacey for everything.
